Summary

Creative and detail-oriented Front-End Designer with strong knowledge of modern web technologies. Skilled in HTML, CSS, JavaScript, React.js, and responsive web design. Experienced in creating clean, user-friendly, and visually engaging web interfaces with a strong focus on usability, accessibility, and responsive design. Passionate about learning new technologies and contributing to innovative projects.

Professional Experience

Dream71 | Technical Support & Client Service | May 2026 – Present

- Provide technical support and client service to ensure smooth and effective service delivery.
- Communicate professionally with clients to understand their service needs and provide appropriate assistance.
- Maintain positive client relationships through responsive communication, service coordination, and timely follow-up.

Skills

Languages: Java, C, Python, PHP

Frameworks & Tools: React, Express.js, Next.js

Databases: MySQL, MongoDB

Web: HTML, CSS, Tailwind CSS, JavaScript, REST APIs

Microsoft Office: Microsoft Word, Microsoft PowerPoint, Microsoft Excel

Core: Front-End Design, Technical Support, Client Service, Teamwork

Projects

Online Advertisement Optimizer | HTML/CSS/JavaScript

- Built an Online Advertisement Optimizer using HTML, CSS, JavaScript, and MySQL.
- Developed a responsive interface for ad campaign management and tracking.
- Integrated MySQL database for secure data storage and retrieval.
- Implemented ad performance analysis using CTR, engagement, and conversion metrics.

A Stray Animal Management System | Spring Boot

- Developed a web-based system to manage stray animal rescue, shelter, and adoption using HTML, CSS, and JavaScript frontend.
- Used Spring Boot backend with OOP principles (Encapsulation, Inheritance, Polymorphism) for clean and scalable design.
- Built RESTful APIs to handle animal records, health status, and adoption management efficiently.
- Ensured smooth user experience with proper exception handling and simple, user-friendly interface.

Doctor Care | *HTML/Tailwind CSS/JavaScript*

- Developed a responsive Doctor Care healthcare website using HTML, Tailwind CSS, and JavaScript to provide information about doctors and medical services.
- Designed a clean and modern UI using Tailwind CSS to ensure better user experience and mobile responsiveness across all devices.
- Implemented interactive frontend features using JavaScript to enhance user engagement and improve website functionality.
- Focused on usability, accessibility, and smooth navigation to ensure an efficient and user-friendly healthcare platform.

Online Voting System | *HTML/CSS/JavaScript*

- Built an Online Voting System using HTML, CSS, and JavaScript.
- Developed a responsive and user-friendly interface for voter registration and vote casting.
- Implemented vote validation and real-time result counting using JavaScript.
- Implemented a secure and user-friendly voting process.

Education

B.Sc. in Computer Science & Engineering

Southeast University

CGPA: 3.20 / 4.00

Expected Graduation: September 2026

Higher Secondary Certificate (HSC)

Govt. Kazi Mahbubullah (K.M) College

GPA: 5.00 / 5.00

Passing Year: 2020

Secondary School Certificate (SSC)

Bhanga Pilot High School

GPA: 4.95 / 5.00

Passing Year: 2017
